

## **Veröffentlichungen**

### **Fachzeitschriften:**

de Reese J., Sperl N., Schmid J., Sieber V., Plank J.; "Effect of biotechnologically modified alginates on LDH structures"; *Bioinspired, Biomimetic and Nanobiomaterials* 4 (2015), 174 – 186.

de Reese J., Lenz P., Zilch K., Plank J.; "Influence of Type of Superplasticizer and Cement Composition on the Adhesive Bonding between Aged and Fresh Concrete; *Construction & Building Materials* 48 (2013), 717 – 724.

de Reese J., Lenz P., Zilch K., Plank J.; "Zum Einfluss von Zement und Fließmitteln auf den Haftverbund zwischen Alt- und Ergänzungsbeton"; *Beton* 63 (2013), 156 – 157.

de Reese J., Plank J.; "Adsorption of polyelectrolytes on calcium carbonate – which thermodynamic parameters are driving this process?"; *Journal of the American Ceramic Society*, 94 (10), (2011), 3515 – 3522.

Plank J., B. Sachsenhauser, J. de Reese; "Experimental determination of the thermodynamic parameters affecting the adsorption behaviour and dispersion effectiveness of PCE superplasticizers"; *Cement and Concrete Research* 40 (5) (2010) 699 – 709.

### **Konferenzbeiträge:**

de Reese J., Sperl N., Storcheva O., Schmid J., Sieber V., Plank J.; "Impact of biotechnologically modified alginates on the d-spacing of LDH structures"; 18<sup>th</sup> International Symposium on Intercalation Compounds (ISIC18), Strasbourg (France), May 31–June 4, 2015, Compilation of Abstracts p. 61.

Lei L., de Reese J., Plank J.; "Synthesis, Characterization and Dispersing Performance of a Novel Cycloaliphatic Superplasticizer"; in: V. M. Malhotra (Ed.), 10th CANMET/ACI Conference on Superplasticizers and Other Chemical Admixtures in Concrete (Proceedings), ACI, Prague, 2012, SP-288.01, 11 – 27.

de Reese J., Lenz P., Zilch K., Plank J.; "Zum Einfluss von Zement und Fließmitteln auf den Haftverbund zwischen Alt- und Ergänzungsbeton"; 18. ibausil, Bauhaus-Universität Weimar, 12-15 Sep. 2012, Weimar, Tagungsband 1, 368 – 375.
