Auflage, Prentice Hall. Ernst, D./Häcker, J. (2011): Applied International Corporate Finance, Vahlen, München, 2. Auflage. Hawley, D./Hawley, R. (2007): Excel Hacks Tips&Tools for streamlining your spreadsheets, 2. Auflage, O'Reilly,Sebastopol. Munter, M. (2006): Guide to Managerial Communication, Prentice Hall, 7. Auflage. Powell, S. G. (2008): Modeling for Insight: A master class for business analysts, J. Wiley & Sons, Hoboken. Sengupta, C. (2004): Financial Modeling using Excel and VBA, John Wiley & Sons, Hoboken, New Jersey.
Teaching methods	Literature study, case studies on the implementation of a corporate valuation exercise as well as Excel- based exercises. With the chapter "Corporate Finance" of the textbook "Financial Modeling" and additional literature sources, the course participants have access to a comprehensive set of materials on the topic corporate finance. The implementation of the methods of corporate finance in Excel while considering the standards of financial modeling is presented in a detailed and comprehensive manner. The case studies help to implement the valuation methods for a given task in a model-based and applied fashion. Excel-based exercises help to critically assess the material studied. Test questions help in the exam preparation. The self-study of the participants is supported via e-learning.

Assessment methods	Written exam
Language of instruction	English
Name of lecturer	Prof. Dr. Florent Deisting
