

Courses in English Course Description

Department	12 Design
Course title	E+V III Ergonomie Praxis
Hours per week (SWS)	4
Number of ECTS credits	6
Course objective	This course addresses design students, who have some basic knowledge and experience in Human Factors. The course's goal is to further develop and broaden this knowledge. In it, all design students, regardless of their field of study, will be offered examples which employ Human Factors principles and to apply this knowledge when developing products. To round out the knowledge about human physical characteristics and feabilities, the subject of cognition (attention, motivation, processing, decision making etc) will be addressed.
Prerequisites	/
Recommended reading	Lecturer's recommendations for further reading
Teaching methods	Introductory lectures, practical evaluation of objects, application in the development of a product. Please refer to the department's homepage design.hm.edu for information on whether the courses will be held via Zoom, hybrid, or take place in presence!
Assessment methods	Transcript of one of the courses learnings, to distributed for all participants.
Language of instruction	English - if required
Name of lecturer	Prof. Marion Kießling
Email	marion.kiessling@hm.edu
