

## Courses in English Course Description

<b>Department</b>	10 Business Administration
<b>Course title</b>	<b>Challenges in Financial and Management Accounting</b>
<b>Course number</b>	5.3.6/6.3.6
<b>Hours per week (SWS)</b>	4
<b>Number of ECTS credits</b>	5
<b>Course objective</b>	The objective of the module is to deepen academic work under guidance in the context of a seminar paper or case study, including the presentation and academic discussion of the results. In this context, selected aspects of the topic "New Challenges in Financial and Management Accounting" will be examined. Students will gain deeper insights into selected areas of financial and management accounting. They will also learn about the peculiarities of academic work with sources. They will improve in writing academic texts and in the ethically proper acquisition and presentation of academic results. They will train in scientifically elaborating, processing, and creating study works on complex issues and in presenting the acquired knowledge.
