Department	07 Computer Science and Mathematics
Course title	**Program Verification**
Hours per week (SWS)	4
Number of ECTS credits	5
Course objective	Understanding different approaches to program verification. Practical experience using different verification tools.
Prerequisites	Logic
Recommended reading	
Teaching methods	Lecture (2 SWS) + practical exercise (2 SWS)
Assessment methods	
Language of instruction	English
Name of lecturer	Prof. Matthias Güdemann
Email	matthias.guedemann@hm.edu
Link	
Course content	Program verification for C programs.
