Information and Welcome Events for Master's Degree Programs:

Biotechnology   Bioengineering   <b>BBM</b>	Oct., 1st	lecture hall <b>A 3.04</b>	5:00-9:00 p.m.
Mechatronics   <b>MEM</b>	Oct., 1st	lecture hall <b>D 2.12</b>	5:00-9:00 p.m.
Micro- and Nanotechnology   <b>MNM</b>	Oct., 1st	lecture hall <b>A 3.19</b>	5:00-9:00 p.m.
Photonics   <b>POM</b>	Oct., 1st	lecture hall <b>A 3.10</b>	5:00-9:00 p.m.

We recommend the participation strongly for all new students at our department.

>> **Before these welcome events, there are no lectures, lab classes and exercises.** <<

For possible changes, please refer to the announcements on the department homepage.

### Registration for lectures and lab classes at the department O6:

For the use of some intern department pages and the assignment of your courses in the lecture schedules, please register separately on the faculty server:

<https://sci.hm.edu/index.en.html> > Students > Login Department-Server

Please note that the registration data that you have received after successful enrollment by the Student Advising Center at the university (campus ID) does not automatically lead to a registration on the faculty server. The separate login to the FK server does not necessarily have to be identical to the campus ID. However, it makes sense to use the same password here.

To register, you must provide your e-mail address. Only the "@hm.edu" e-mail address is permitted here. (Check the contents of your hm.edu mailbox at regular intervals, as this also regulates administrative matters!!!)

Registrations for lectures, lab classes and seminars at Department O6 are usually possible via <https://sci.hm.edu/index.en.html> > Students > **Timetables**

as soon as the timetable is online (at the latest one week before the beginning of the semester). Please open your semester lecture schedule by clicking on your assigned study group (Example: MEB1A = Mechatronics in the 1st semester Group A). In the header area above the now open lecture schedule, you will find the link "Take your courses". Here you can put together your individual lecture schedule.

**It is important here** that the assignment of lab classes groups is usually only activated by the lecturers after the first lecture to which this lab class belongs and only from this point in time is an assignment and group division possible. There are also lecturers who unlock their lab classes right away.

During the semester, lecturers post information about the postponement of their lectures at the homepage <https://sci.hm.edu> > Studierende > Mitteilungen -- OR on the Department channel in the HM-App.

### Study and Examination Regulations (SPO):

The study and examination regulations are the legal basis for your degree program. It contains all framework conditions and regulations that affect your degree program. You can find the SPO of your degree program on the respective homepage of the degree program or directly under PRIMUSS Online Services

You need more information around you studies at the HM? Please contact the Advisor of your program or our International Office for questions.

[https://hm.edu/en/contact\\_en/international\\_affairs\\_office\\_contact/index.en.html](https://hm.edu/en/contact_en/international_affairs_office_contact/index.en.html)

An important point of contact, especially for those who start their studies at our department, is the office of the Students Organisation – Student Council O6:

You can reach the **Student Organisation – Student Council O6**

- in **Room D 0.08** (Bldg. D, Ground Floor, Entrance Courtyard),
- by phone at 089/1265-1699 and by email at [kontakt@fachschaft06.de](mailto:kontakt@fachschaft06.de)
-  [fachschaft06\\_hm](#)

The Student Council O6 represents the interests of all students at the Department O6 vis-à-vis the various committees within the HM and in the self-administration of the department and the university. Cooperation is voluntary and very welcome. If you are interested, contact the Fachschaft O6 directly.
