

Tool introduction: Primuss, 709 & Moodle

Master Office

Account activation

To access all platforms, you first need to activate your HM account (after successful enrolment).

For instructions see: [Aktivierung Studierendenaccount ab WiSe 2026/27 - IT-FAQ – BayernCollab](#)
(you can switch to English on the top of the article)

If your enrolment is still pending once the lectures start, you can request guest access to Moodle from your lecturers.

For Primuss and 709, you can only access once your enrolment is finished.

Login: <https://www3.primuss.de/cgi-bin/login/index.pl?FH=fhm> (login with your HM account)

You can use Primuss to:

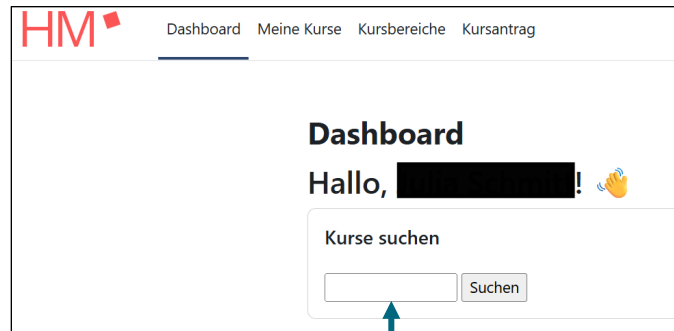

- Update your personal data (e.g. address)
- View your study and examination regulations (SPO)
- Send applications and messages (e.g. for requesting a leave of absence)
- Download certificates (e.g. enrolment certificates)
- Register for exams & view your grades
- Pay the semester fees

Moodle

Study platform

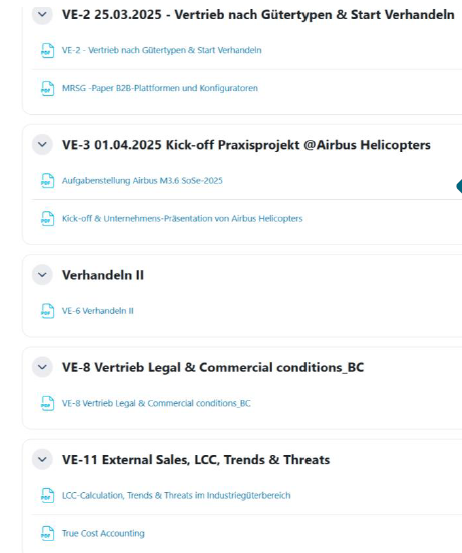

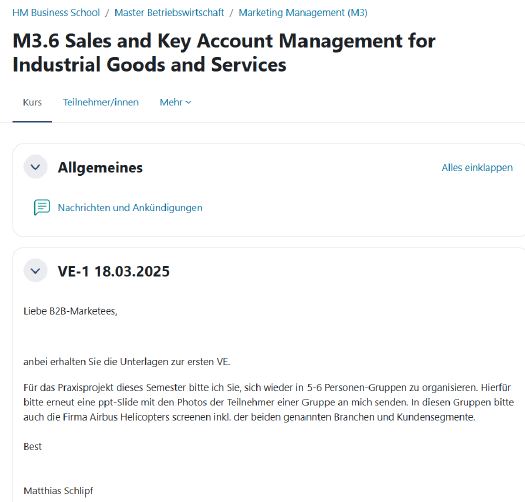

Login: <https://moodle.hm.edu/> (login with your HM account)

1.

Search for course name or ID (e.g. „M3.6“), then enter the registration password which you receive from your lecturer (usually during the first class)

2.

This is where you can access lecture materials, handouts, group assignments, etc.

709

Timetable

Login: <https://709.hm.edu/> (login with your HM account)

Instructions: [709 - BayernCollab](#)

The screenshot shows the 'My timetable' interface for HM 709. On the left is a sidebar with the HM 709 logo and a 'MY STUDIES' section containing links for Timetable, Course registration, Course catalogue, Degree programmes, Module handbook, Semester groups, Notice boards, and Faculties and units. At the bottom of the sidebar are links for Legal notice, Privacy, IT security, and Accessibility, along with a user profile section showing 'HM member' and a 'Sign out' button. The main content area is titled 'My timetable' and features a date range selector set to '05.10.2026 - 11.10.2026' with 'Today' and navigation arrows. View options for 'Day', 'Week' (selected), and 'List' are available, along with a checkbox for 'Show waiting-list places'. A message states 'Nothing is scheduled in this period.' Below this is a section for 'Export and subscribe to your timetable' with instructions and two buttons: 'Download timetable as .ics' and 'Manage calendar subscriptions'. A note at the bottom explains that the downloaded file is a snapshot and not updated, while a subscription keeps fetching the current timetable.

Further information
